

PREPARE YOURSELF FOR A LIFESTYLE CAREER

This is a great incentive for a Practitioner who delights in this rewarding work or for those who wish to gain greater insights to their own companion animals' (pets) relationships.

Clients come to consult with the Animal Bach Flower Practitioner because they trust it will be worth it, both for themselves and their companion animal.

Our standard of training will reflect that trust.

TESTIMONIALS

My interest in starting the Animal Naturopath Training Program started when our loved dog, called Jasper became sick and I decided to approach a more natural way to give him and his sister a better way of living. And it has been a wonderful journey since I discovered this path, for the puppies as well for the whole family.

My Cocker Spaniel, Meg, was very sick The vet took bloods and I was told she had haemolytic anemia. Her count was so low the vet and the lab said there was nothing we could do, she would die. Her gums were white and she would not move. Sandy advised to make some herbal tea and Bach Flowers. Within days she was up and back to her old self. If it weren't for Sandy, Meg would have died years before her time. Thanks Sandy!

Our 10 year old cat had a slight limp after wrenching her leg. It was obvious it was not going to improve on its own so we decided to try a Bach Flower remedy that Sandy recommended. The results have been wonderful. Our girl is back joining us for walks, interacting with the other animals and us again and even running. Thanks Sandy Urwin!

It would be over 30 years ago that Sandy Urwin came into our lives. Her treatment of our and friend's animals could not be matched by anyone. From small ailments to big problems, Sandy is just fantastic at sorting them all out – owners included! From stomach and liver to skin, tumors and cancer I can fully guarantee her work. Sandy has her heart in the right place and can well and truly be relied on for wonderful help.

ANIMAL NATUROPATH TRAINING PROGRAM (ANTP)

CERTIFICATE BACH FLOWERS FOR ANIMALS

- Explore the mental, emotional and spiritual lives of animals and their relationships with owners and the environment
- Be tutored & mentored by NZ's most experienced Animal Naturopaths
- Study at your own pace, own time; keep working while you study

YOUR FUTURE IN ANIMAL NATUROPATHY STARTS RIGHT HERE !

THE BACH FLOWERS

The Bach Flowers restore balance and harmony to an animal's true nature.

They provide emotional support for our animal friends to help them achieve inner wellness and better able to cope with life's challenges, whether in the home, commercial or farm environment. The Bach Flowers are safe to use alone or with other treatments; gentle, non-toxic and inexpensive.

CERTIFICATE BACH FLOWERS FOR ANIMALS

ENTRY REQUIREMENTS

- There are no qualification pre-requisites for undertaking study
- You must have an understanding of written and spoken English to facilitate the learning process.

COURSE AIMS

To provide you with a sound knowledge of the Bach Flowers – and how they work with animals; exploring the animals' mental, emotional and spiritual lives and their relationships with owners and the environment.

COURSE CONTENT

- The Course provides you with excellent case taking guidelines and the essential elements to become a keen observer and an effective client communicator – attributes that will serve you well in becoming a successful Animal Health Practitioner
- Course includes:
 - Behaviour, sentience, body language, case taking, use of the Bach Flowers, basic anatomy & physiology
 - Identifying signs of ill-health (dogs, cats, birds, horses); basic nursing, common parasites, infectious diseases, predator/predated animals.
 - Treatment for trauma, abuse, re-homing challenges, grief, convalescence; travel, home & environmental stress.

COURSE STRUCTURE

- 10 Modules, each covering different aspects of health and treatment plans
- Assignments from each Module with Tutor feedback and monitoring, to ensure engagement and competency.

- Case Studies – paper cases are supplied for the student learning experience.
- Student to complete five live case studies with tutor supervision.
- Practical skills – basic nursing examination; to complete at approved facility.
- Open textbook examination at completion of studies.

COURSE REQUIREMENTS

- Textbook provided “ The Desktop Guide to the Bach Flowers for Animals - with Repertory.”
- Textbook Required: “Veterinary Medical Terminology” Dawn Christenson

COURSE COMPLETION

- The Course is designed for completion in 18 months. Although there is no time limit, it is recommended to allow 6 weeks for each assignment.
- The student will be awarded the ANTP ‘Certificate in Bach Flowers for Animals’ at the successful completion of the Course.
- Your Post-Grad career is supported by on-going up-skilling provided by the Animal Naturopath Training Program
- Qualified students will be able to access credits towards further studies offered in the Animal Naturopathic Training program.

NZQA POSITION

We are an independent education provider who chooses not to incorporate any of the NZQA directives. We believe student learning should be directed and individualised to the students' career choice without irrelevant material or subject matter.

ABOUT US

- A combined Practitioner experience of over 70 years on holistic animal care
- Insights to the extraordinary pathways of learning from other modalities that can be integrated into your studies.
- We are able to offer students a unique perspective to maintaining the health of our animal friends.
